

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Ascend Laboratories has initiated a recall due to an out of specification result for the organic impurities test observed during stability testing of Fosfomycin Tromethamine Granules for Oral Solution. Out of specification results were initially observed in seven batches (22121458, 22121459, 22121460, 22121461, 22121463, and 22121464). In efforts to assess the impact of the out of specification, ten additional batches are being recalled.
