

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

This recall has been initiated because DAYTRANA® patches manufactured by Noven Pharmaceuticals, Inc. in lot 91958 were found to be out of specification (OOS) for shear. Shear is an attribute related to the adhesive properties of the transdermal patches. The investigation led to conclude the silicone raw material used was found to be the root cause; therefore, all DAYTRANA® lots manufactured with the silicone raw material are included within the scope of this recall, lots, 91955, 93039, 91956, 92475, 91957, 92197, 92476, 92477, 91474, 91959, 92478, 92479, 92198, 92199, 93040, and 93041.

As a result, patients and caregivers could potentially experience adhesion problems with these patches if used as they will not stick well to skin when applied (lifts or falls off).

Lot #	Strength (mg/hr)	NDC#	Manufactured Date	Expiration Date	First Ship Date	Last Ship Date
91955	10 mg (1.1)	68968-5552-3	3/10/2022	Jul-23	05/04/22	11/16/22
