

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Fresenius Kabi USA LLC is recalling Ketorolac Tromethamine 30mg/mL vials to the RETAIL level. This recall was initiated due to particulate matter found in reserve sample vials. Since Cardinal Health Private Label purchased the Ketorolac Tromethamine lot to repackage, it is necessary for Cardinal Health Private Label to recall the repackaged Assist bags of 5s repackaged from the affected lot. This item was first shipped 11/20/2019. This recall affects the lots listed below remaining in distribution.
