

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

For the attention of BD product distributors: Becton, Dickinson and Company (BD) is conducting a recall on the ChloraPrep 3 mL applicator product with catalog numbers listed in the table below.

BD has identified that storage of the ChloraPrep 3 mL consistently at 30°C / 75%RH for more than six months causes the growth of *Aspergillus penicillioides* resulting in a breach in the package integrity. For this reason, it has been determined that the ChloraPrep 3 mL product distributed in climatic regions of the world where product can potentially be exposed consistently to 30°C / 75%RH for more than six months is at risk. The health consequences associated with the presence of the fungus, *Aspergillus penicillioides*, in the product packaging are potentially serious.
