Ferring Pharmaceuticals Inc. is initiating a recall of all batches of DDAVP® Nasal Spray (desmopressin acetate) 10 mcg /0.1 mL. During testing of a sample of desmopressin acetate nasal spray solution product marketed outside the US (batch R14349) a low volume was observed and the analysis of the solution from this sample generated an out-of-specification result concerning the desmopressin content (155% of the targeted amount). In addition, an elevated amount of benzalkonium chloride was determined (120% of the targeted amount).

This recall is to the retail level. Ferring began distributing these lots June 26, 2018.
