APPLICATION INSTRUCTIONS
NONRESIDENT STERILE COMPOUNDING PHARMACY LICENSE
(Business & Professions Code Sections 4127 et. seq.)

A nonresident pharmacy shall not compound sterile drug products for shipment into California without a sterile compounding pharmacy license issued by the Board pursuant to Business and Professions Code Sections 4127.2. The license shall be renewed annually and is not transferable.

A license to compound sterile drug products may not be issued or renewed until the location is inspected by the Board and found to be in compliance with the Business and Professions Code and regulations adopted by the Board.

All pharmacies that compound sterile drug products must follow Board regulations for sterile compounding found in the California Code of Regulations beginning with section 1751.

The contact person designated on the application will be advised if additional information is necessary.

A checklist is provided with these instructions. The Board encourages the submission of all required documentation with the application as well as the use of the checklist to assist with the application process. The Board may request additional documentation to confirm or substantiate information in the application. When submitting documents to the Board, please make a copy for your records.
